Good Morning:

Bill please coordinate with Carl and Frank with the paint colors. Thanks for having that info. Also, we are in need of heat in the office area in order to start spackling the Sheetrock in the colder temps. The heat feed from your area going into to office, is that operational?

As far as rear warehouse, that occupancy is going to have to wait until we are able to address the removal. That was the next objective inside the building. However, the parking lot is the overall next step in our efforts. Depending on budget, we may be able to perform operations simultaneously if feasible. Any estimated start date would be just guessing at this point.

Thanks

Regards,

Eric

Good Morning Bill:

We need to confirm paint color choices for office area.

Carl is the EPA representative at the site this week. Could you please coordinate with Frank and Carl on this today?

Thanks

Regards,

Eric
